

Reports - Single Church

[Help](#)

In the chart below there are 2 divisions "All Respondents" and one for "Church Leaders Only". Under each there are 3 columns. The GENERAL PERCEPTION summarizes how the "respondents" believe the church is doing in general. The PERSONAL PERCEPTION indicates how the individual sees their personal performance. The ACTIVITY LEVEL shows both the average raw score and percentage out of 10 possible suggested behaviours.

	ALL RESPONDENTS			CHURCH LEADERS ONLY		
	General Perception Question (Church)	Personal Perception Question (Myself)	Activity Level	General Perception Question (Church)	Personal Perception Question (Myself)	Activity Level
Vision	73%	74%	1.81 / 18%	62%	62%	1.38 / 14%
Worship	77%	84%	6.98 / 70%	69%	69%	7.77 / 78%
Fellowship	83%	57%	4.17 / 42%	53%	69%	4.15 / 42%
Dicipleship	72%	80%	6.67% / 67%	69%	85%	7.08 / 71%
Outreach	81%	39%	2.56 / 26%	85%	31%	2.38 / 24%
Serving	41%	39%	2.68 / 27%	31%	62%	5.00 / 50%

Healthy Church Benchmark Zones

60-100% Healthy, 40-59% Borderline, 0-49% Unhealthy

Evaluation Questions

How well is the church doing? Consider the Healthy Church Benchmarks!

- 1) Do the perceptions indicate Healthy, Borderline or Unhealthy?
- 2) Do the perceptions appear to be correct? If not, how will we correct the misperception? How can we improve people's ability to perceive accurately? While people's perceptions tell the truth as they see it, they may not always be correct.
- 3) What is the difference between the perceptions of "all respondents" and "church leader's only"? In most cases, church leaders have a better perception than most members.
- 4) Do the activity levels support the church's perceptions?
- 5) What steps do we have to take to move our congregation from unhealthy or borderline to healthy?
